

Comfort and support for  
patients, nursing home  
residents and their families

Hospital Companions is a revolutionary approach to patient care and communication, resulting in an enhanced hospital or nursing home experience.

## Hospital Care

The Hospital Companions program is designed to enhance the patient care experience. Our use of web technology and common comfort therapies make us a unique and beneficial partner during a difficult time.

Our patients have a Companion at the bedside providing non-medical assistance, working in collaboration with the medical staff, and serving as the communication centrist among patient, family, physicians, and others.

Our customized Patient Page™ allows concerned friends and family to get the latest updates about the patient and provides the opportunity to post messages and well-wishes.

Our Companions are college-educated with backgrounds in the areas of Social Work, Psychology, Communications or Education.

Our mission is to make a difficult time easier for patients and families.

### Hospital and Rehabilitation Program Highlights

- Companionship for patient
- On-site point of contact for families
- Reference for physicians
- Collaborative partner with medical staff
- Customized Patient Page™
- Patient Enhancement Program™
- Family Support Program

## Nursing Home Care

At Hospital Companions we also provide companionship services for nursing home residents and their families.

We enhance the residents' nursing home experience by incorporating our Resident Page™ web technology and comfort therapies as a way to improve their quality of life.

Our college-educated Companions have backgrounds in Social Work, Psychology, Communications or Education. Our Companions spend time with the resident, offering a variety of therapies: art, music, entertainment and others, providing the personal interaction and additional one-on-one time residents appreciate.

Hospital Companions currently serves patients, residents and families throughout the Chicagoland area.

### Nursing Home Program Highlights

- Regular visitor to resident
- Updates provided to families
- Reference for physicians
- Collaborative partner with nursing home staff
- Customized Resident Page™
- Interactive enhancement therapies
- Family Support Program

## Partnering with Physicians

We, at Hospital Companions, recognize the most effective way to aid patients is to partner with their physicians and medical professionals.

When building our program, we received input from physicians and other medical professionals. They felt having access to information about a patient's mood and state of mind (like that shared on our Patient Page™) would help them do their job better. Having access to these non-medical aspects of care assists them in treating the whole patient.

We pledge to work cooperatively with the medical community, recognizing ourselves as a supportive element to care, with the ultimate goal of improving not only the medical situation at hand, but the patient care experience overall.

To learn more about our program, or to recommend a patient who could benefit from our service, please call 877•50•COMPANION (877•502•6672).

When you refer a patient, you are giving them a gift—the gift of companionship.

## Service Packages and Fees

Recognizing the needs of our clients may differ, we offer four levels of service:

- **Hospital or Nursing Home Companionship Package**—This package provides all of the benefits of our service including a personal Companion, development and access to the Patient or Resident Page,™ our Patient Enhancement and Family Support Programs.™ \$45/per hour (3 hour minimum)
- **Patient/Resident Page™ Package**—Use our technology to easily communicate with family and friends. We develop and update a customized Patient Page™ with information provided by you about the patient or resident. \$100 per week
- **Quick-Check Package**—For a concerned family member, the Companion will visit the patient and call the family with an update. \$100 per visit
- **Patient Concierge Services**—Add a special touch to your patient's or resident's stay, like having their favorite lunch delivered or having their forgotten eyeglasses brought to them. Please call for pricing
